## GSC ALUMNI FEEDBACK: ANALYSIS AND REPORT (2023 – 2024)

The alumni survey, conducted in April 2024, aimed to gather insights from former students about their experiences and connection with Government Serchhip College (GSC). A total of 96 alumni participated, offering feedback on various aspects, such as their pride in being GSC alumni, the college's efforts to involve them in activities, the influence of their teachers, the quality of education they received, and the impact of career guidance and counseling. The survey also examined their willingness to contribute to the college's development, the level of support and cooperation from teachers, the quality of student-teacher relationships, their perspectives on recent developments at GSC, and whether they had recommended the college to others.

Respondents rated their agreement on a 5-point scale ranging from "strongly agree" to "strongly disagree." The results show that the majority of alumni tended to agree with the statements across all categories, with "agree" being the most common response and "strongly disagree" appearing the least frequently.
